AMENDMENTS TO THE SPECIFICATION

Please replace the TITLE with the following:

**GENETIC POLYMORPHISMS ASSOCIATED WITH CORONARY STENOSIS, METHODS
OF DETECTION AND USES THEREOF**

Please replace the ABSTRACT with the following:

The present invention is based on the discovery of genetic polymorphisms that are associated with coronary stenosis. In particular, the present invention relates to nucleic acid molecules containing the polymorphisms, variant proteins encoded by such nucleic acid molecules, reagents for detecting the polymorphic nucleic acid molecules and proteins, and methods of using the nucleic acid and proteins as well as methods of using reagents for their detection.
